Public comment:

Mr. Jala elaborated on his reasons for asking for reconsideration. He had different calculations for lot size(included common land), garage size, and percentage of lot coverage. He had contacted Noralee Raymond for information to mitigate runoff

No one spoke in favor of the proposal.

Abutter Jim Kelly, who had attended the February 22nd meeting when this request was heard, repeated his concerns about granting the set back reduction. He added that Mr. Jala could build a one car garage without an appeal.

Board action:

MOTION: moved by Matt Schaefer and seconded by Peter Leavitt that the Board find based on the comments this evening of the abutter most directly affected, that granting the setback reduction would result in an unreasonable interference to the privacy interest of the abutting land owners.

Vote: 4/1; motion carried.

MOTION: moved by Peter Leavitt and seconded by Matt Schaefer to deny Mr. Jala's request for reconsideration of the February 22, 2010 decision based on the fact the we did not determine that there were any essential aspects of the case of February 22, 2010 that were sufficient to warrant a reconsideration. The finding of fact from the February 22, 2010 meeting is that there were issues with the lot coverage, proportional to the size of the lot; there were concerns with the abutter involving issues such as erosion and access; there were concerns with the walling in effect of the lake, and that the decision of the February 22, 2010 , be upheld based on the elements reflected in the minutes of February 22, 2010.

Vote: 5/0; motion carried.

MOTION: moved by Matt Schaefer and seconded by Peter Leavitt that the Board finds that there was no injustice done at the February 22, 2010 meeting.

Vote: 5/0; motion carried.

MOTION:Moved by Matt Schaefer and seconded by Elden Lingwood that the Board finds that the reconsideration of the decision of the February 22, 2010 meeting was not warranted.
